

# Fair and square.

Blox is our new product line of space-saving elements for events and exhibitions.

Next to our patented curved lines, we now also offer a simple, straight look.

We've made the design strong by combining our tried-and-tested foldable PP material with sturdy slabs of locally sourced oak wood.

# Blox Presenter

The Presenter is the first  
and core product of our new Blox line.

Its simple-but-sophisticated look  
puts your product front and centre.  
And when it's time to pack up,  
it folds down in a snap  
and fits into any car boot.

# Top-notch

We love it when things fit perfectly into other things.  
When the Blox Display slides sleekly into its notch,  
it makes anything that stands underneath  
look like a million bucks.

# Use

In customary flux style, assembly is super-fast  
without the use of any tools.

The units are scratch resistant and easy to clean,  
so no more repainting after every show.

We've even added a big clip for ultimate flatness.

# Customisation

We offer many possibilities to make a Blox unit uniquely yours.

From stickers, screen printing, to a striking all-over-print or a subtle engraving, your message will be the centre of attention.

**TIP** One cool option we offer is to engrave your logo into the inside of each Presenter. When combined with an internal light, this creates a very sexy glow-effect.
