

Geef meerwaarde aan je werkplek & interieur

Our mission is to create image displays to convey meaning and facilitate meetings.

We design and manufacture large visual communications and layout solutions. We have over 25 years of know-how in the fields of bespoke furnishings, large-format printing and the supply of personalised structures for events and retail. Recognised as an unrivalled partner for image professionals, our knowledge of the layout of meeting and discussion spaces is well-established.

We would now like to offer our expertise to the professional furnishing and fittings sector. Our leitmotif is all about improving the comfort of workspaces with customisable, durable furnishing solutions with incorporated soundproofing. On a daily basis, our talented teams work on the design, manufacture and finishing of smart and accessible products with modular characteristics that adapt to the requirements and needs of each space.

We are convinced that a well-organised and pleasant work environment makes teams more motivated and efficient, and improves their well-being and the productivity of the company.

With our Office Collection, discover a selection of products to suit all companies, designed for individual and collective work spaces.

OUR COMMITMENTS

Made in Europe

100% printable and customisable

Our expertise in printing and textile finishing enables you to customise your existing furnishing solutions or create new ones based on your preferences.

Dedicated team

Our sales department is at your disposal. We are responsive at each stage of your order with efficient logistics, full availability and fast delivery using suitable transport.

Environmentally friendly

All our aluminium-framed solutions are recyclable and their design enables you to alternate visuals as you wish. We are Imprim'vert certified (french certification), our sublimation printing processes are environmentally friendly and our woven fabrics are fireproof.

We have the answer for all your needs

We guarantee you an innovative offer and solutions thanks to the expertise of our design office. Our three flagship ranges (standard or made-to-measure) will adapt to any of your projects, especially as they incorporate soundproofing solutions.

RECEPTION

ADJUST YOUR SPACE

A functional and pleasant working environment is essential for employee focus and productivity. Our system's adjustability means we can meet everybody's needs as well as adapting to new requirements and trends in office furnishing (open space, flex office, etc.).

Planning and designing your workspace well is a priority to ensure employee well-being.

Partitions screens

Fretwork screens are perfect for creating aesthetic physical barriers. They are available in two styles (lattice or slatted) with a choice of white or black finishes. Both screen options are double-sided with transparent infills. Combined panels together in-line or position at right angles, thanks to the unique shaped base.

Technical data:

- Material : MDF and acetate
- Mounting : self-supporting (panel that can be mounted on a base)
- Colour : white or black
- Graphic : front and back with acetate window
- Soundproofing: not available

2400 (h) x 1818 (w)x 400 (p)	8,5

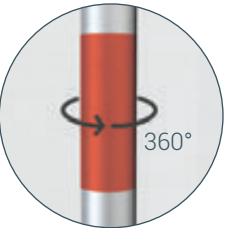

ADJUST YOUR SPACE

Focus on Fusion Magnetic range

Fusion Magnetic is composed of 15 tubular aluminum frames (Ø30 mm) usable with double-sided printed textile graphics. These frames can be connected to each other easily using strong magnets placed inside each structure.

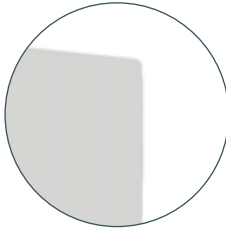

The modules can be used alone or in combination to create hundreds of possible configurations. The different structures are classified according to their width or their shape and offer right or rounded angles.

MagLink 360 ° system. Each structure has 4 magnets that allow you to connect the frames to each other without clips or tools.

Easily place your frames at the angle you want.
